

Jason Isley/scubazoo.com

Dear Family and Friends,

As you may have noticed, we have decided not to serve shark fin soup at our wedding celebration today. We have taken this decision because we have learned that many shark species today are near extinction, and that we find the practice of shark finning to be cruel. We would like to contribute our small part to help save this magnificent animal.

We sincerely hope that you will respect our decision. As an alternative to shark fin soup, we have requested a different specially prepared soup for you.

Please enjoy.
